

CY 2011 ODA Portfolio Review DISTRIBUTION OF GRANTS BY TYPE

Grants may also be classified according to the type or nature of assistance. For this Review, the following types have been adopted:

1.) Technical assistance-

policy/thematic studies, development studies, studies for project preparation

2.) Technical cooperation-

consultants/expert dispatch, training, scholarship, other forms of capacity building

3.) Capital grants-

facilities, infrastructure grants

4.) Emergency/relief-

assistance for emergencies, relief

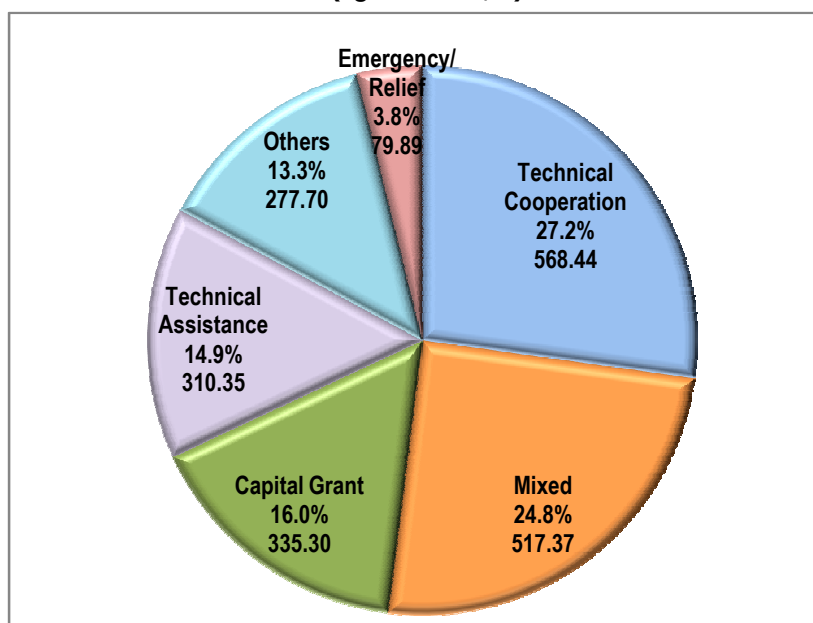

5.) Mixed-

grants that have components belonging to different categories

6.) Others –

grants that cannot be classified under the above mentioned categories. Grants classified under “others” include budget support grants, multi-donor facilities, co-financing projects from NGO or LGU after Call for Proposal and follow-up grants (grants for post-project management to maintain effectiveness of the operation)

**Distribution of Grants by Type
(figures in US\$M)**

The grants portfolio consisted mainly of Technical Cooperation projects and Mixed type projects. Technical cooperation projects accounted for 27.2 percent (worth US\$568.44 million) while Grants classified under the Mixed type accounted for about 25 percent (US\$ 517.37 million).
