

## PTC Form 2: Actual and Potential conflict between the proposed project and other government projects

Objectives: 1) To identify actual and potential conflicts, if any, between the project and other government projects  
2) To identify measures to resolve any conflict

Official Project Name

### 1. Potential conflict between the project and other government projects

a. Will the proposed project conflict with other projects of the Implementing Agency (IA)?

☐Yes ☐No

If yes, select all applicable conflict scenarios, identify all project/s in conflict with the proposed project, details/description of all identified conflicts, and plans to resolve each conflict.

Conflict scenarios	Project name/s	Details of the conflict	What is the plan to resolve the conflict?
a. Proposed project has a <b>physical overlap with an approved project</b> in terms of design, alignment, ROW, etc.			
b. Proposed project has a <b>physical overlap with a project being developed</b> in terms of design, alignment, ROW, etc.			
c. Proposed project shall <b>negatively affect an approved project</b> in terms of: economic benefits, traffic/demand, financial viability, as applicable			
d. Proposed project shall <b>negatively affect a project being developed</b> in terms of: economic benefits, traffic/demand, financial viability, as applicable			
e. Others (please specify)			

b. Will the proposed project conflict with other projects of other national agencies or Local Government Units?

☐Yes ☐No

If yes, select all applicable conflict scenarios, identify all project/s in conflict with the proposed project, details/description of all identified conflicts, and plans to resolve each conflict.

Conflict scenarios	Project name/s	Details of the conflict	What is the plan to resolve the conflict?
a. Proposed project has a <b>physical overlap with an approved project</b> in terms of design, alignment, ROW, etc.			
b. Proposed project has a <b>physical overlap with a project being developed</b> in terms of design, alignment, ROW, etc.			
c. Proposed project shall <b>negatively affect an approved project</b> in terms of: economic benefits, traffic/demand, financial viability, as applicable			
d. Proposed project shall <b>negatively affect a project being developed</b> in terms of: economic benefits, traffic/demand, financial viability, as applicable			
e. Others (please specify)
