70	Paris Agreement in Action: Upscaling of Forest and Landscape Restoration to Achieve Nationally Determined Contribution/GIZ BMUB	Forest and landscape restoration (FLR) can make a decisive contribution to the achievement of nationally determined contributions (NDCs), since FLR measures often combine mitigation and adaptation approaches. The project focuses on three regions with considerable potential for expanding forest stocks and improving their ecosystem services. The aim is to support partner countries in honouring their commitments made under the Paris Agreement. To achieve this, the project is funding regional platforms for knowledge transfer, capacity-building, mobilising innovative financing and FLR monitoring. The project is also supporting the implementation of existing national FLR action plans and their monitoring.	DENR	Agriculture, Agrarian Reform and Natural Resources	0.53	01-Sep-21	31-Dec-23	Ongoing	III, VII
71	Reduce, Reuse, Recycle to Protect the Marine Environment and Coral Reefs (3RPROMAR)	The 3RproMar supports the ASEAN Member States in the improvement of implementation capacities for reducing land-based waste leakage to protect the marine environment; addressing four focal countries with geographical focus as the main source of marine litter along the Mekong River system: Viet Nam, Cambodia, Philippines and Indonesia.	DENR	Agriculture, Agrarian Reform and Natural Resources	3.57	14-Jun-21	30-Jun-25	Ongoing	VI
72	Responsible Land Governance in Mindanao	The RLGM project aims to improve the management of public lands by national agencies, local governments and communities – including indigenous cultural communities – in selected areas of Mindanao.	DENR	Governance and Institutions Development	4.08	27-Nov-17	30-Apr-23	Ongoing	X, XI, CARAGA
73	Rule of Law	In the Mount Apo area of Davao Region, the project focuses primarily on promoting conflict management measures through legally secure titling of land rights, strengthening dispute resolution and local mediation, and promoting governmental complaints bodies to document violations of land rights.	DENR	Agriculture, Agrarian Reform and Natural Resources	2.04	22-Sep-22	30-Sep-24	New	XI, XII
74	Solutions for marine and coastal resilience (SOMACORE)	SOMACORE aims is to build and strengthen the resilience of the Coral Triangle region to the impacts of climate change and human-induced threats. 158	Fibre for the Future, Farming of Abaca	improving abaca-based smallholder farming in the Philippines , Mindanao- This 5-year project supports making an abaca value chain strong, efficient, and future-proof. The chain will offer work and a steady income for 5,000 farmers and their communities. Farmers will get support in cultivating, financing and marketing. The project will also link them to international buyers by organizing and implementing their sourcing strategy. The government's support program for land rights will attract much-needed investments in the farms.	PhilFIDA, Department of Agrarian Reform, Agronomika Finance Corporation, Kennemer Foods International, St. Woord en Daad	Agriculture, Agrarian Reform and Natural Resources	1.61	TBD	TBD	New	Mindanao-Wide
159	Going Bananas - Restoring Livelihoods of Conflict Affected Farmers in Cotabato	This project aims to contribute to peace and sustainable economic development by restoration of agriculture-based livelihoods for over 12,000 farmer households in Carmen, North Cotabato. By introducing climate-resilient farming, incentives in the form of seedlings, improved market conditions, and landscape interventions the farmers will become productive smallholders. This will result in an improved income for at least 2,000 farmers and an increase in nutritional value and food security for their families (9,000 individuals). 163	Partnership for Sustainable Water Supply in Cagayan de Oro City	<p>In 2011 Tropical Storm Sendong caused severe flooding in Cagayan de Oro, killing 1,268 people, making 38,000 families homeless and interrupting water supply for a month. It highlighted the lack of resilience of the river catchment, water supply infrastructure, residents, institutions and response organizations. Recent flash floods are a painful reminder and wake-up call to stakeholders.</p> <p>Through the Sustainable Water Fund, VEI B.V. together with the Cagayan de Oro Water District and other partners will tackle three related sets of challenges. The three broad goals of the project are: (1) Implement Integrated river basin management; (2) Improve Climate resilient water supply infrastructure; and (3) Increase access to Water, Sanitation and Hygiene for local poor communities.</p>	Cagayan de Oro Water District	Infrastructure Development	6.12	01-Jan-18	31-Dec-23	Ongoing	X
164	Support to Commission on Human Rights' Online Human Rights Education and Promotion Program	<p>The CHR, pursuant to its human rights education mandate, is developing its online platform for human rights education and promotion. Mainly, this is done through adopting more cost-effective modalities available online through courses and trainings for different government agencies on relevant topics.</p> <p>The project includes mainstreaming of human rights education in basic education by producing supplemental learning materials that can be used in the teaching of human rights to school children, with possible inclusion in future programs of the Department of Education and/or, where possible, other private educational institutions. Online short courses form part of the establishment of an online Human Rights Academy (and precursor to the Philippines' Human Rights Institute).</p>	CHR	Social Reform and Community Development	0.04	01-Nov-20	31-Jul-22	Closed	Nationwide
165	Sustainable Pro-Poor Water Supply Project in Cebu	<p>The project goals are to extend the water network, improve network resilience and provide access to clean water for an additional 80,000 people in Metro Cebu. The goals are to be sustainable by making the new connections affordable. This will increase MCWD's customer base and generate more revenue for investment in the water infrastructure.</p>	Metro Cebu Water District	Infrastructure Development	7.25	01-Jan-15	31-Dec-22	Closed	VII

<i>Global Environment Facility (GEF)</i>									
206	Accelerating the Adoption and Scale-up of Electric Mobility Low-carbon City Development in the Philippines	The proposed project addresses the identified gap and focuses on the development of charging infrastructure (incl. battery swapping) integrated with renewable energy and supporting development of viable e-mobility business models (with focus on 3-wheelers). By this the project will strengthen local energy planning framework, deliver low-carbon, affordable electricity and charging infrastructure, demonstrate viable business models for the private sector, resulting in greater uptake of electric vehicles in the Philippines. This, in turn, will lead to decreasing GHG emissions from transport. The project uses a combined approach of market transformation and market barrier removal (creating enabling environment for public and private sector investment in e-mobility infrastructure) by implementing capacity building targeted at private sector and demonstration of innovative charging and renewable energy infrastructure	DTI	Agriculture, Agrarian Reform and Natural Resources	3.79	TBD	TBD	New	Nationwide
207	GEF Global Opportunities for Long-term Development of ASGM Sector (GOLD): Contribution Toward the Elimination of Mercury in the Artisanal and Small-Scale Gold Mining (ASGM) Sector: From Miners to Refiners (GEF-GOLD)/GEF	To reduce the use of mercury in the ASGM sector in the participating countries through a holistic, multisectoral integrated formalization approach, and increasing access to finance leading to adoption of sustainable mercury free technologies and access to traceable gold supply chains	DENR	Agriculture, Agrarian Reform and Natural Resources	11.70	01-Aug-18	31-May-24	Ongoing	CAR, V

214	Capacity Building Support to the Department of Social Welfare and Development (DSWD) Towards Protection of Mobile and Vulnerable Populations in the Philippines (EP.0019)	The project aims to contribute towards increased capacity and coordination by the Philippine Government, through Department of Social Welfare and Development (DSWD), to respond to the needs of mobile vulnerable populations, including Internally Displaced Persons (IDPs), with enhanced information management, shelter and emergency response that meet international standards.	DSWD	Governance and Institutions Development	2.25	03-May-21	02-Aug-23	Ongoing	VIII, CARAGA
215	Climate Change Adaptation and Community Resilience in the Philippines (CARP) (NC.0045)	<p>Despite its high vulnerabilities to effects of climate change and high risks of climate change-induced displacement and forced migration, the Philippines lacks sufficient awareness and actions related to the migration and climate change nexus, both at the policy level and the public/community level. The primary objective of this project is to support the Philippines to mitigate adverse impacts of climate-related events through enhancing policy and community-level interventions integrating safe and orderly migration as a tool of resilience for at-risk communities. This will be achieved through two Outcomes. The first deals with increasing the awareness and technical capacity of local government bodies, decision-makers, civil society, media and vulnerable communities to adapt to climate change and consider migration management as an opportunity to build community resilience. This will be based on a research policy paper on Climate Change and Migration in partnership with the Climate Change Commission and key experts in the field.</p> <p>The policy paper will be the basis for the second outcome</p>	IOM	Governance and Institutions Development	0.30	01-Aug-20	31-Jul-23	Ongoing	Nationwide

		The policy paper will be the basis for the second outcome, which revolves around creating core messages on Climate Change and Migration advocacy and awareness at the national and local levels. The project will aid local government and community organizations to produce evidence-based climate adaptive programmes that consider migration in their planning, through the implementation of training and proposal writing workshops using updated and localized modules. Through this two-pronged approach, combining awareness promotion and evidence-based policy advocacy, the project will facilitate the development and adoption of effective climate change response programmes that integrate safe and orderly migration as adaptive measures by policymakers (both at the local and national levels).							
216	Driving Marawi's Rehabilitation through IDP Support, Community Development and Peaceful Transitional Action (CS.1044)	The action aims to strengthen the resilience of fragile IDPs, returnees and host communities across all 72 accessible barangays in Marawi City. It will address the major drivers of instability and unwanted migration by improving local governance, social cohesion and community stabilization combined with psychosocial support, as well as support for socioeconomic development through integrated livelihood assistance	BARMM	Social Reform and Community Development	5.40	01-Jan-20	30-Jun-23	Ongoing	BARMM
217	Emergency Grant Aid for the Philippines in response to typhoon disaster (DP.1853)	The Humanitarian Country Team (HCT) published the Humanitarian Needs and Priorities Plan (HNP) on 24 December, highlighting critical needs in areas including Shelter, Camp Coordination and Camp Management (CCCM) and Health including Mental Health and Psychosocial Support (MHPSS). IOM will take multi-sectoral approach to address these outstanding needs in line with the HNP. Through its response, IOM aims to mitigate the impact of Typhoon Rai on most vulnerable segments of the population in four worst affected provinces – Bohol in Central Visayas, Southern Leyte in Eastern Visayas, Dinagat Islands and Surigao del Norte, especially the Siargao Island, in Caraga Regions. 225	Strengthening COVID-19 Prevention and Response for Remote and Hard-To-Reach Communities in BARMM and its Neighboring Regions (MP.0565)	The COVID-19 pandemic poses significant humanitarian and development challenges to the Bangsamoro Autonomous Region in Muslim Mindanao (BARMM) in the Philippines. The country as a whole is currently fighting against one of the highest levels of COVID-19 transmission in Asia Pacific. As of 3 January 2022, the Philippines has recorded more than 2.8 million cases cumulatively, including 51,586 death cases and 24,992 active cases, according to the Department of Health (DOH). IOM's response to these challenges will support the most left behind, hard-to-reach communities in BARMM and its neighbouring regions, focusing on BaSulTa islands, through sustainable, community-driven health interventions. It will seek to address the most urgent gaps and immediate needs in the region's efforts to prevent and respond to COVID-19, especially in areas of vaccination and IPC, and contribute to protecting these communities from COVID-19 associated risks and effects. <i>UN Industrial Development Organization (UNIDO)</i>									
267	Implementation of PCB Management Programs for Electric Cooperatives and Safe E- Wastes Management	The project is fully consistent with the priorities reflected in the National Implementation Plan (NIP) as it includes two components specifically addressed at measurably reducing persistent organic pollutants (POPs) from electrical equipment/polychlorinated biphenyls (PCBs) and E-waste/polybrominated diphenyl ethers (POP PBDEs), provision of decision making tools and economic approaches on these issues and a component aimed at raising the awareness of operators, authorities and of the general public on POPs issue. The project grant will support segregation of PBDE-contaminated plastic from the general e-waste stream, and its disposal. The project will also assess possible technologies that may be adopted to address PBDE management. The project will also subsidize the disposal of PCBs from rural cooperatives and to further enhance the suitability of the existing facility to treat all PCB-contaminated materials including solids and metallic parts. Transformer replacement program will be financed through a loan package from DBP. Overall, the project is expected to achieve effective management of POPs-PBDE from Waste and Electrical and Electronic Equipment (WEEE), and PCB wastes and PCB-contaminated equipment assisting the Philippines to meet its obligation to the Stockholm Convention. 268	Renewable Energy Technology to Increase Value Added of Seaweeds in Tawi- Tawi	The project aims to increase and extend the availability of electricity service and design water supply system in the island municipalities that are home to about 15,000 seaweed farmers. These work components would facilitate the implementation of the LGU's and MAFAR's plans and programs to increase the value-added of the seaweeds industry in the local and regional economies. Focus shall be on enhancing the quality of raw seaweeds and the application of renewable energy technologies in post-harvest facilities and processing. The action moves a step further by including the rehabilitation of facilities with increased availability of electricity service in order to improve the delivery of basic community social and welfare services in the seaweed farming communities. 269	UNIDO Country Programming Framework for Inclusive and Sustainable Industrial Development (2018-2023)	The UNIDO Country Programming Framework (CP) is designed to enhance UNIDO's support to the Government of the Republic of the Philippines to implement a roadmap towards Inclusive and Sustainable Industrial Development (ISID) as stated in the Lima Declaration adopted on 02 December 2013 during the 15th session of General Conference of UNIDO. In doing this, UNIDO has aligned the priorities for the Philippines to the Philippine Development Plan 2017 - 2022, building on the achievements of past projects and programmes. As industrialization is a long-term endeavor involving many stakeholders, efforts will be made to strengthen synergies and minimize duplication by collaborating with development cooperation partners, state and non-state actors, including the private sector in the country. As a framework based on established national priorities, it will be a useful guide for UNIDO's interventions in the Philippines over the next years. 315	Metro Cebu Intelligent Transportation System Master Plan (MCITSMP)	The project will assist DOTr in evaluating potential ITS solutions through the development of an ITS master plan for Cebu City and its 12 surrounding local government units ("LGUs"). The TA will evaluate the traffic-related issues faced by each of the 13 LGUs in Metro Cebu and recommend traffic control technologies and other ITS solutions for improving the safety and efficiency of regional traffic flows. The TA will identify and rank solutions to these issues, as well as define the technical platforms, infrastructure upgrades, network services, and other systems needed for Project implementation. The TA will also include the assessment of the current capacity of involved institutions. Knowledge transfer activities for relevant DOTr and/or Metro Cebu representatives will be delivered through meetings, discussions, consultations, lectures, technical workshops, and official visits throughout the TA period.
